Does God know the future? Or is the future unknowable to even God? Open theists believe the search for biblical answers will spark a new Revolution. Are they right? Arguing that God interacts with his creatures spontaneously, the controversial new movement known as "open theism" has called classic church theology up for reexamination. Confronting this view, classic theists maintain that God has complete foreknowledge and that open-theist arguments are unorthodox. Each view has implications for our vision of the future and of God's dealings with humanity.

In both subtle and distinct ways, postmodernism has permeated American life,

becoming a part of our schools, our TV shows, our churches, our conversations, and even our own thinking. How often have we said or heard, "Do what you want, but don't push your values on me," or "You live your life, and I'll live mine"? Its sheer pervasiveness demands that we ask: Is there anything wrong with postmodernism, or with the tolerance, pluralism, individualism, and casualness that it promotes? With compelling illustrations from current events and everyday life, as well as his customary sound analysis, Millard Erickson equips discerning evangelical Christians not only to understand and recognize the phenomenon of postmodernism but to deal with its effects in a relevant, biblically minded way. As he unearths its evolution, he forcefully reveals postmodernism's inherent problems and its incoherence with the teachings of God's Word. He also unveils the greatest areas of concern for Christians and gives people the tools they need to respond more wisely, believe more certainly, and discern more soundly in this confusing age.

The trinity is the least understood and most important concept in the church. Yet many would just as soon jettison it in the interest of ecumenical unity. God in Three Persons defends the significance of a trinitarian definition and explains it in understandable terms.

Seeks to bring the original dictionary up-to-date by supplementing it with pertinent ideas and biographies from the past fifteen years, with an emphasis on the historical figures and movements of the first nineteen centuries of Christianity.

A 2002 Christianity Today Book of the Year! Postmodernism. The term slowly filtered into our vocabularies about three decades ago and now permeates most discussions of the humanities. Those who tout the promises and perils of this twentieth-century intellectual movement have filled many a bookshelf. And in a previous book, *Postmodernizing the Faith: Evangelical Responses to the Challenge of Postmodernism*, Millard J. Erickson provided his own summary of several evangelical responses--both positive and negative--to the movement. Now in this book Erickson offers his own promised in-depth analysis and constructive response. What are the intellectual roots of postmodernism? Who are its most prominent exponents? What can we learn from their critique of modernism? Where do their assumptions and analyses fail us? Where do we go from here? What might a post-postmodernism look like? Erickson addresses these issues with characteristic discernment, clarity and evenhandedness, neither dismissing the insights of postmodern thought nor succumbing uncritically to its allure. An important book for all who are concerned with commending Christian truth to the culture within which we live.

What can the early church contribute to theology today? Donald Fairbairn takes us back to the biblical roots and central convictions of the early church, showing us what we have tended to overlook, especially in our understanding of God as Trinity, the person of Christ and the nature of our salvation as sharing in the Son's relationship to the Father.

Part 1 delineates the array of positions - including liberal, Catholic, and Protestant stances - taken on the destiny of the unevangelized. In part 2 the author probes the critical issues, including the role of general revelation, the possibility of salvation after death, the requirements of salvation, the number of the redeemed, and the problem of annihilationism. In the final part, Erickson tackles two practical areas: (1) the fate of those who die in infancy and others who do not reach the age of accountability and (2) how the subject of the destiny of the unevangelized affects evangelism and missions.
