PW50 (1981-1983; 1985-1987; 1990-2002), PW80 (1983; 1985; 1991-2002), BW80 (1986-1988; 1990)

The Real Cost of Insecure Software • In 1996, software defects in a Boeing 757 caused a crash that killed 70 people... • In 2003, a software vulnerability helped cause the largest U.S. power outage in decades... • In 2004, known software weaknesses let a hacker invade T-Mobile, capturing everything from passwords to Paris Hilton's photos... • In 2005, 23,900 Toyota Priuses were recalled for software errors that could cause the cars to shut down at highway speeds... • In 2006 dubbed "The Year of Cybercrime," 7,000 software vulnerabilities were discovered that hackers could use to access private information... • In 2007, operatives in two nations brazenly exploited software vulnerabilities to cripple the infrastructure and steal trade secrets from other sovereign nations... Software has become crucial to the very survival of civilization. But badly written, insecure software is hurting people-and costing businesses and individuals billions of dollars every year. This must change. In Geekonomics, David Rice shows how we can change it. Rice reveals why the software industry is rewarded for carelessness, and how we can revamp the industry's incentives to get the reliability and security we desperately need and deserve. You'll discover why the software industry still has shockingly little accountability-and what we must do to fix that. Brilliantly written, utterly compelling, and thoroughly realistic, Geekonomics is a long-overdue call to arms. Whether you're software user, decision maker, employee, or business owner this book will change your life...or even save it.

Gonzo Journalist and literary roustabout Hunter S. Thompson flies with the angels-Hell's Angels, that is-in this short work of nonfiction. "California, Labor Day weekend . . . early, with ocean fog still in the streets, outlaw motorcyclists wearing chains, shades and greasy Levis roll out from damp garages, all-night diners and cast-off one-night pads in Frisco, Hollywood, Berdoo and East Oakland, heading for the Monterey peninsula, north of Big Sur. . . . The Menace is loose again." Thus begins Hunter S. Thompson's vivid account of his experiences with California's most notorious motorcycle gang, the Hell's Angels. In the mid-1960s, Thompson spent almost two years living with the controversial Angels, cycling up and down the coast, reveling in the anarchic spirit of their clan, and, as befits their name, raising hell. His book successfully captures a singular moment in American history, when the biker lifestyle was first defined, and when such countercultural movements were electrifying and horrifying America. Thompson, the creator of Gonzo journalism, writes with his usual bravado, energy, and brutal honesty, and with a nuanced and incisive eye; as The New Yorker pointed out, "For all its uninhibited and sardonic humor, Thompson's book is a thoughtful piece of work." As illuminating now as when originally published in 1967, Hell's Angels is a gripping portrait, and the best account we have of the truth behind an American legend.

Nation Branding: Concepts, Issues, Practice is a comprehensive and exciting text that demonstrates why nations are embracing the principles of brand management. It clearly explains how the concepts and techniques of branding can be adapted to the context of nations- as opposed to the more usual context of products, services, or companies. Concepts grounded in the brand management literature such as brand identity, brand image, brand positioning, and brand equity, are transposed to the domain of nation branding and supported by country case insights that provide vivid illustrations of nation branding in practice. Nation branding is a means by which more and more nations are attempting to compete on the global stage. Current practice in nation branding is examined and future horizons traced. The book provides: • The first overview of its kind on nation branding • A blend of academic theory and real world practice in an accessible, readable fashion • A clear and detailed adaptation of existing brand theory to the emerging domain of nation branding • An original conceptual framework and models for nation branding • A rich range of international examples and over 20 contributions by leading experts from around the world Country case insights on nation branding strategies currently being utilized by nations such as Japan, Egypt, Brazil, Switzerland, Iceland, and Russia Clearly and coherently structured, the book is an essential introduction to nation branding for both students and policymakers and will be an essential text for those interested in this fast growing area. Key Features: • Seminal text in a cutting-edge, controversial and crucial field of global importance • Ideal blend of theory and practice • Twenty individual country case studies, including USA, Hong Kong, Japan, New Zealand, Spain and China.

The Ninth Edition of this ESSENTIAL GUIDE to the Canadian Music Industry has been completely updated and revised. Featuring over 60 categories, each listing includes: Company, Contact, Address, Phone, FAX, E-mail, Web Address and Description.Areas covered include: Associations, Booking Agents, Concert Venues, Custom Duplicators, Financial Services, Lawyers, Sound & Lighting Companies, Music Conferences, Music Education, Music Publishers, Orchestras, Promotion & Publicity Companies, Radio Stations - including Campus Radio, Record Producers, Recording Studios, Touring Networks and much more! PLUS Special Sections: Artist Contacts, Award Winners, Canadian Chart Toppers and much more!

Nation Branding: Concepts, Issues, Practice was the ground-breaking first textbook to provide an overview of this recently established but fast-growing practice, in which the principles of brand management are applied to countries rather than companies. Many governments have invested in nation branding in order to strengthen their country's influence, improve its reputation, or boost tourism, trade and investment. This new edition has been comprehensively revised and its influential original framework modified to reflect the very latest changes to this still-developing field. It remains an accessible blend of theory and practice rich with international examples and contributions. Updates to this edition: New international cases of countries as diverse as China, United Arab Emirates, Ghana, Cuba, India, Great Britain and many more; New contributions from distinguished scholars, diplomats and businesspeople providing a range of case studies, practitioner insights and academic perspectives; New Companion Website to support the book featuring instructor aids such as PowerPoint presentations for each chapter and an instructor manual; This much-anticipated update to an influential book is an essential introduction to nation branding for students and policy makers.
